

Study in Japan for advancing science and fostering international collaboration

A workshop in collaboration with The IDEC Institute, Hiroshima University and Board of Study in Environmental Science, Postgraduate Institute of Science, University of Peradeniya, Sri Lanka

8:30-13:30

Registration from 8:30

PGIS

conference hall

**13th
Feb
2025**

Speakers

Fumito Maruyama (Ph.D., Osaka Univ. Japan)

Professor, Planetary Health and Innovation Science Center, The IDEC Institute, Hiroshima University

Hidden dynamics of Non-Tuberculous Mycobacteria in the environment

Oliver Ileperuma (Ph.D., Univ. of Arizona USA)

Professor Emeritus, University of Peradeniya

Atmospheric aerosols

So Fujiyoshi (Ph.D., Kyoto Univ. Japan)

Assistant Professor, Planetary Health and Innovation Science Center, The IDEC Institute, Hiroshima University

Ground to sky analysis of atmospheric microbial distribution

Sudharma Yatigamma (Ph.D., Queens Univ. Canada)

Professor, Department of Zoology, University of Peradeniya

Inland Freshwaters of Sri Lanka: Research Potential in a Globally-Important Tropical Resource

Ishara Perera (Ph.D., Tohoku Univ. Japan)

Assistant Professor, One Welfare International Research Center, Joint School of Veterinary Medicine, Yamaguchi University

Ph.D. journey as an aquatic ecologist and thriving as a researcher in Japan
